

Serving Instructions

Thank you for your Casserole Queen purchase. Your casserole has been freshly prepared especially for you.

To get the most flavor and enjoyment out of your casserole we suggest the following cooking instructions:

- Our casseroles perform best when completely thawed before cooking. Depending on the size, it typically takes a frozen casserole anywhere between 24-48 hours to thaw while in your refrigerator. We do not recommend that you thaw the casserole at room temperature because that has the potential for spoilage. If you are pressed for time you can bake a casserole straight from the freezer at the suggested temperature, but you will need twice as much time in the oven.
- Please allow at least 10 minutes for your oven to fully preheat before baking your casserole.
- In order to cook your casserole thoroughly, do not cook in microwave (the dreaded flavor zapper). Our casseroles and disposables tins are intended for the oven. Although, once your casserole has been fully cooked and removed from the tin, you can use your microwave to reheat portions of the casserole.
- Your oven varies from Mrs. Henderson's oven down the road, so please note that these are basic guidelines. Cooking times may vary ever so slightly, so please pay attention. Check the casseroles several times near the end of baking to look for bubbling at the edges and a hot center.
- To ensure quality, we recommend that you do not store your casserole for longer than 2 months in your freezer.

Enjoy!
The Casserole Queens

Lunch Lady Doris' Spicy Mac and Cheese:

Remove foil lid. Bake in a 350° oven about 30 minutes or until hot and bubbly. Let stand for 10 minutes before serving.

Pairing Suggestions: Makes a complete meal or a great side dish for about anything, but we suggest serving with some creamy tomato soup.

Ingredients: elbow macaroni, broccoli, sun dried tomatoes, green onions, butter, flour, basil, cayenne pepper, salt, milk, sharp cheddar, gruyere, gouda
